MEMORANDUM

Committee

From: Catherine McLeod, Cultural Development Coordinator

Mem No. MEM-ADMIN-2019-0005

Subject: 2018 State of Culture Report

Date: March 7, 2019

PURPOSE OF THE MEMORANDUM:

The purpose of this memorandum is to provide Committee with the second annual update on the 'State of Culture' in Halton Hills. Information in the attached Appendix 1 and Appendix 2 presents a summary of cultural activity in Halton Hills led by the Cultural Services section, by the Halton Hills Public Library, as well as highlights of community-led initiatives and activities.

BACKGROUND:

This is the second annual *State of Culture* report. The first report (ADMIN-2018-0010) included (i) highlights of 2017 activities; (ii) an extensive overview of the value of culture and its role in contributing to individual and community wellbeing, quality of life and economic prosperity; (iii) and the history and development of the Town's Cultural Services section. A visually attractive summary of that report was prepared and included in the Halton Hills Public Library's 'Culture Special' of Wordsworth to inform the public.

This current State of Culture report focuses on significant accomplishments and developments in advancing Halton Hills' cultural vibrancy in 2018 through: 1) Town-led; 2) Library-led; and 3) community-led initiatives. As in 2017, a condensed visually attractive version of this report will be created and distributed to the public in the Halton Hills Public Library's newsletter, Wordsworth, and also as a stand-alone piece of marketing collateral.

COMMENTS:

1. Cultural Services

Activities of the Cultural Services section continue to be driven by core Town Strategies and plans including:

- Cultural Master Plan (2013)
- Cultural Master Plan Action Plan (2015)
- Public Art Policy (2016)
- Public Art Master Plan (2018)
- Integrated Community Sustainability Strategy (2013)
- Economic Development Strategy (2012)
- Tourism Strategy (2014)

Continued implementation and development of these plans ensures that the Town is in an optimal position to leverage the arts and culture sector.

The relationship between culture, tourism and economic development helps to raise quality of life and make Halton Hills an attractive location for investment.

The Cultural Services section is guided by the following:

- **Vision Statement:** To foster the development and celebration of Halton Hills' unique character, diversity, civic identity, rural lifestyle, natural and cultural heritage and to do so in a way that has the greatest positive impact on the quality of life in Halton Hills.
- **Mission Statement:** To implement the Cultural Master Plan by working collaboratively with a wide variety of internal and external partners to coordinate the delivery of cultural services, build strong cultural institutions, complete communities, support economic development and grow the Town's creative capital.

Cultural Services is responsible for providing overall corporate leadership and coordination related to cultural initiatives. It sets and champions a corporate vision for culture and uses culture as a catalyst for economic development. It maximizes partnerships, collaboration and synergies between internal and external stakeholders in order to deliver effective, innovative and engaging cultural policies, programs and events.

2. Arts and Culture Profile

Economic Development staff produced five sector profiles, including Arts and Culture to provide a snapshot of industry clusters in the Town. Clusters represent geographic concentrations of interconnected businesses, organizations, skilled labour pools and associated institutions in a sector. The profile (see Appendix 1) provides a quick

overview of arts and culture in Halton Hills. It will be updated as new and more detailed information becomes available.

3. 2018 Arts and Culture Highlights

Key 2018 successes and accomplishments in advancing the cultural portfolio included:

- **Continued implementation** of the Cultural Master Plan.
- **Formation** of the Public Art Advisory Board.
- **Completion and approval** of the Public Art Master Plan.
- **Producing the national and provincial award winning** third edition of Culture Days (includes Doors Open which is organized separately but in coordination with Culture Days).

4. 2019 Priorities

As outlined in the Business Plan for the Economic Development, Innovation and Culture division, Town staff will leverage the many successes realized in 2018 to continue to enhance Halton Hills' cultural vibrancy in 2019 and beyond. Key upcoming and ongoing projects include:

- **Continued development and enhanced marketing of Halton Hills' award winning Culture Days program.**
- **Implementing Phase 1 of the Cultural Assets Interpretive Tour program** (e.g. verifying cultural GIS data, determining tour branding, launching pilot tours, and developing marketing material). The completion of Phase 1 will provide a solid foundation for the undertaking of Phase 2 which has been approved as part of the 2019 Capital budget.

- **Designation of the Helson Gallery through the Department of Canadian Heritage and Certification of the Helson Gift through the Canadian Cultural Property Export Review Board** (expected project completion in 2020).

- **Incorporate Innovation Techniques into section and division process with an intention to rollout across the corporation.**
- **Continue to Integrate Culture** (e.g. into planning processes, across Town departments, etc.) by working with the cross-departmental Cultural Services Coordination Committee.
- **Official Plan Amendments related to further integrating culture into land use planning.**
- **Improved awareness and coordination of cultural activities** (e.g. explore and develop a communication and promotional strategy for cultural programs, lead the workplan of the Cultural Services Coordination Committee, participate in regional cultural networks, etc.).

5. Appendices

This memorandum is supplemented by more detailed information contained in the following appendices:

- **Appendix 1: Arts and Culture Cultural Sector Profile**
- **Appendix 2: State of Culture – Details on Town, Library and Community-led cultural initiatives, projects and successes from 2018**

In turn, quality of life improvements are expected to contribute to the economic prosperity of Halton Hills. Building on the many 2018 successes, momentum will continue in 2019 with the continued development and implementation of the Cultural Master Plan, Public Art Master Plan, and the Economic Development, Innovation and Culture Business Plan.

The following are highlights of Town-led initiatives that are contributing to the Cultural Vibrancy of Halton Hills.

Master Plans and Policies

1.1 Cultural Master Plan

The Town's award winning Cultural Master Plan (CMP), developed and approved in 2013, and the Cultural Master Plan Action Plan (CMPAP), developed and approved in 2015, continue to drive the priority actions of the Cultural Services section. These plans include recommendations that impact multiple Town departments, as well as, community partners in the arts, culture, heritage and volunteer sectors. A detailed review of progress made in implementing recommendations of these plans is underway. Results will be presented in a separate report to Committee later in 2019.

1.2 Public Art Master Plan

- The Public Art Advisory Board was formed in February 2018. This Board consists of both Town staff and community members, and is the driving force behind developing and implementing the Public Art Master Plan.

- The public consultation process for the Public Art Master Plan concluded in March 2018 and a summary of the results was presented to Council in the “What We Heard” report (ADMIN-2018-0015).
- The Public Art Master Plan was approved by Council in June 2018 (ADMIN-2018-0021).

Community Engagement

1.3 Culture Days

Halton Hills received national and provincial acclaim for its third installment of the annual Culture Days event:

- Halton Hills made the Culture Days National Top Ten list for the first time, ranking sixth in the “Populations of 50,000 to 499,999” category.
- The Norval *KAIROS Blanket Exercise* won the Ontario Culture Days 2018 Spotlight People’s Choice award.
- The *Downtown Georgetown Corridor* was the runner-up for the Best Corridor award by Ontario Culture Days.
- *OnBeat in the Hills!* was the runner-up for Best Exemplification of the On Beat Theme by Ontario Culture Days.

Highlights and impact statistics are summarized in the infographic on the next page. Culture Days aims to increase public participation in arts and culture year-round through an annual three day event of free arts and cultural activities. In Halton Hills, Culture Days is planned and promoted by the Culture Days Committee comprised of Town and library staff as well as community partners. Individual events are presented by local artists, organizations and businesses. Doors Open, organized by the Doors Open committee, presented five heritage sites as well as tours of Downtown Georgetown. Cultural Services, in coordination with Corporate Communications, Halton Hills Public Library and with support from Recreation and Parks, implemented a multi-tiered marketing campaign that included a dedicated Town webpage, social media, facility signage, e-newsletters, 2400 Culture Days Brochures, digital and print ads in local papers, event posts on visitHaltonHills.ca, ads in the Recreation Guide and Wordsworth, lawn signs, posters and postcards.

1.5 Helson Gallery Programs

Programs at the Helson Gallery continued to be well attended:

- Spring 2018 marked the fifth season of gallery programming for local elementary schools. About 735 students participated, the highest level in five years and a 35% increase from the previous year. Students toured the Helson Gallery and then made a studio project based on the exhibition.

- The art mentorship program ran for the third year with students of GDHS. Students were introduced to the Town's collection of art and connected to local artists for inspiration.
- A number of Special Events were held at the Gallery, including Family Day, exhibition receptions, tours and exhibition talks, and a professional development workshop for artists. A highlight was a Public Lecture and Lunch & Learn Session with award winning nature photographer, Rosemarie Keough, who discussed her travels in Antarctica and the making of the Antarctica tome, a copy of which was donated to the Town.
- In August, a Plein Air Painting Challenge was held at Prospect Park in Acton: 25 local and GTA artists participated and 40 visitors attended. \$500 was donated and awarded in prize monies for the event.
- Total attendance at Gallery events and programs in 2018 was 1,210, an increase of about 30% over 2017.

1.6 John Elliott Theatre

The John Elliott Theatre, managed by Facilities (Recreation and Parks), is Halton Hills' only purpose built, fixed seating performance venue. It has become the regular stage for several local community theatre groups as well as for hosting TIFF Films, touring theatre companies, concerts, seminars, presentations and workshops.

- The theatre was used by registered groups for 577 hours .
- The theatre was in use for 209 days of 2018. This includes summer camps, rehearsals and other activities in addition to public performances and events.
- Number of tickets sold (not including complimentary tickets): 14,403.
- Total value of tickets sold was: \$303,736.
- The Town curates and runs one program out of the JET, the TIFF film series. Last year 9 films were shown and the average attendance per film was 75 patrons.

1.7 Cultural Communications

A new and impactful Arts & Culture webpage (see screenshot on the next page) was developed in 2018 and launched in early 2019. The webpage is a one-stop location for all things culture in Halton Hills on the Town's website. The site includes links to cultural organizations and resources in the community in addition to Town-led initiatives. Visit **haltonhills.ca/culture** to learn more about Cultural Services, view its Council reports and policies, find festivals and events, explore the community cultural catalogue, access resources for the arts and culture community, and more. Cultural content was also included in Town and Library social media, newsletters, guides and other communications channels (e.g. Economic e-newsletter, E-Fun, Wordsworth, tax bills).

Screenshot of the new Arts and Culture webpage

1.8 Cultural Services and Helson Gallery SWAG

In 2018, the Cultural Services section, in collaboration with Corporate Communications, started a new branding and promotions project in order to:

- Raise the profile of the Helson Gallery and the Helson Collection – comprised of 103 works
- Continue to raise the profile of the relatively new Cultural Services section
- Commemorate Fred Helson
- Create branded materials to distribute at special events, conferences, etc.

To achieve these goals, a SWAG package composed of a branded tote bag and packages of notecards, bookmarks and postcards was created. Each one features one of five works from the Helson collection. The materials feature logos of the Town of Halton Hills, Helson Gallery and Helson Collection, and include the Cultural Services section webpage ([haltonhills.ca/culture](https://www.haltonhills.ca/culture/index.php)) and hashtag (#hhIsCulture). The works selected feature both Canadian and European artists, and demonstrate a range of styles and subjects. Different works from the collection will be featured in future years. To start, 500 tote bags and 250 of each note card, bookmark and postcard were produced. Distribution of the packages began in 2019.

Cultural Assets

1.9 Cultural Assets Interpretive Tour

In 2018, significant work was undertaken with the Town's GIS Coordinator to review and analyze the existing Cultural Inventory data set which was collected in 2013 during the Cultural Mapping process of the Cultural Master Plan. Significant updates and changes were made to the organization of the data. Cultural Services staff will continue the process of updating and validating the entire inventory in 2019. The next stage in the project will be to finalize the parameters of the data set, import all data from all sources into the GIS system, and then develop one pilot tour to ensure that the data parameters are correct and function well within the Story Maps software (the software being used to promote the tours). Once this testing is completed, additional tours will be developed and a study undertaken to determine the infrastructure needed to launch the full tour program.

Service Delivery:

1.10 Cultural Services Coordination Committee

The Cultural Services Coordination Committee completed its first year of operations in 2018. This cross-departmental committee ensures the integration of culture across Town departments. In 2018, the Committee reviewed and provided input into the Public Art Master Plan, reviewed and updated tourism assets for the Credit Valley Trail Arts, Culture and Tourism Working Group, and supported Culture Days marketing and communications.

1.11 Regional Cultural Working Group

The Regional Cultural Working Group completed its first year of operations in 2018. This Working Group shares best practices, coordinates regional cultural offerings and leverages culture for regional tourism. It includes representation from cultural staff in Burlington, Oakville and Milton as well as Regional Tourism Organization #3 (RTO 3), and the Ministry of Tourism, Culture and Sport regional representative. Some of the issues explored by the Working Group in 2018 included: public art policies, cultural communications, Culture Days implementation, Cultural Services structures within municipalities, cultural tourism and cultural funding opportunities.

1.12 Southern Ontario Cultural Managers

This group, on hiatus since 2015, will be reinstated in 2019 as an outcome of the 2018 Creative Cities Conference in Mississauga. The first meeting was in February 2019 in Waterloo with an attendance of 21 cultural managers from Barrie to Peterborough, to Windsor and all points in between attending. The main topics discussed included: cultural planning trends and the next phase of cultural planning, cultural communications, forming relationships with Indigenous communities and moving the TRC (Truth and Reconciliation Commission) recommendations forward, and public art

processes and policies. This group is a valuable information sharing network and resource base.

1.13 Credit Valley Trail

The Cultural Development Coordinator represents the Town, along with the Economic Development and Tourism Coordinator, on the Arts, Culture and Tourism Working Group of the Experience Planning Committee of the Credit Valley Trail. The Working Group is exploring three potential pilot tours along an existing trail that will form part of the overall Credit Valley Trail including one in Halton Hills related to the Credit Valley Footpath. A launch event for the Credit Valley Trail is tentatively scheduled for fall 2019.

1.14 Innovation

The Cultural Development Coordinator attended “Innovation in a Box”, a comprehensive four day advanced practitioner Innovation training course at Juice Inc. This training allows the Cultural Development Coordinator to train other municipal staff as innovation facilitators. Cultural Services will practice the techniques first within the Economic Development, Innovation and Culture division, and then present a plan to rollout training opportunities and facilitation support across Town departments. Implementation of innovative approaches to business will contribute to the effective and efficient delivery of Town services.

Photo: Halton Hills Lecture Series with David Leask

2.4 Virtual Reality (VR) Programming

A variety of VR programming was offered to people of all ages, including outreach to senior and youth centres. VR programming was also brought to residents in long-term care facilities:

3. Community-Led Initiatives

Photos: Highland Games, Leathertown Festival, Anne of Green Gables Day

The following are highlights of community-led initiatives that are contributing to the Cultural Vibrancy of Halton Hills:

3.1 Halton Hills Cultural Roundtable (HHCR)

In 2018, the Roundtable's major focus areas included:

- Planning and hosting the 2018 Cultural Symposium on the theme of Innovation.

- Participating in various community events and initiatives including, the Norval Steering Committee and the Public Art Advisory Board.

In February 2019, the HHCR decided to dissolve as an organization. A joint media release was issued by the Town and the Roundtable to highlight past HHCR accomplishments and to inform the community of the decision. The media release is available here: www.haltonhills.ca/media/MediaRelease.php?id=220

A staff report with recommended next steps will be brought to Committee/Council in the near future.

3.2 Doors Open

In 2018, Doors Open featured six heritage sites and two walking tours in downtown Georgetown. The event was organized by the Doors Open Committee, chaired by Councillor Lawlor. Halton Hills has participated in this world wide program for six years. Marketing in coordination with Halton Region, included a Doors Open brochure, posters, social media and listings on the Provincial Doors Open website. Since Doors Open in Halton Region coincides with Culture Days, the Doors Open sites were also extensively promoted through the Culture Days marketing campaign. This helped maximize community awareness and event attendance. On Sunday September 30th, there were 350 visits to Halton Hills' Doors Open sites and programming.

3.3 Lucy Maud Montgomery Heritage Society (LMMHS)

The Lucy Maud Montgomery Museum and Literary Centre project continues to be developed. In 2018, LMMHS applied for a federal National Heritage designation for the Manse. The Heritage Foundation of Halton Hills was awarded an Ontario Trillium Foundation Seed Grant of approximately \$75,000 to assist with planning of the project and the design of the museum. Implementation of a feasibility study is now underway. While the Museum and Literary Centre project is under development the LMMHS continues to host events in Norval. Key activities in 2018 included:

- 25th anniversary of Montgomery Christmas involving four churches in Norval.

Deputy Treasurer/Manager of Revenue and Taxation

DATE: February 25, 2019

MEMORANDUM NO.: MEM-CORPSERV-2019-0004

RE: Annual Development Charges Indexing

PURPOSE OF THE MEMORANDUM:

The purpose of this memorandum is to advise Council of the annual index adjustment for Development Charges (DCs) as permitted.

BACKGROUND:

Development Charges are collected for the Town under By-law 2017-0049 as amended. Section 13 of the Town of Halton Hills' By-law permits the Treasurer to make annual adjustments (indexing) to the approved charges on April 1 of each year without amending the By-law.

COMMENTS:

The adjustments are made based on the most recent twelve month change in the Statistics Canada Quarterly "Construction Price Statistics". The index has increased by 5.7% from the 4th Quarter 2017 to 4th Quarter 2018.

Schedule "A" reflects the 5.7% increase applied to the charges for the various residential dwelling and non-residential categories.

Schedule "B" indicates the Development Charge Fee Schedule effective April 1, 2019. The fees for the Halton Region are preliminary and subject to change. The fees for the Halton Public School Board and the Halton Separate School Board remain unchanged at this time.

A Front-ending Recovery Payment applies to Regional residential development in addition to development charges noted in Schedule 'B'. Attached Schedule "C" outlines these charges.

CONCLUSION:

The Region of Halton, the City of Burlington and the Towns of Oakville and Milton are expected to index their respective DC rates on April 1, 2019 using an annual indexing rate of 5.7%.

Since this report is none of the latter, the Sustainability Implications section is not applicable.

SCHEDULE D Job Evaluation Policy

A. JOB EVALUATION POLICY

The purpose of the Job Evaluation Policy is to establish an appropriate point range for each position, which then relates to the grades on the Town's Salary Grid.

Job evaluation policies and procedures apply in the following circumstances:

Reorganization

The Chief Administrative Officer will seek Council's approval for reorganizations affecting staff at the Department Heads' level.

A Department Head proposing a re-organization consults with the Manager of Human Resources. Prior to the C.A.O.'s review, the Manager of Human Resources, after discussions with the Department Head, should complete a preliminary job evaluation based on the newly completed job descriptions for the reorganized positions. Once the evaluation and cost implications are determined, then the case should be presented to the C.A.O. for consideration and approval (i.e. case cost-benefit analysis should be brought to the C.A.O. for approval).

Upon receiving the Chief Administrative Officer's approval for the reorganization, the Department Head may request an evaluation of the reorganized job(s) based on a completed job description and the Town's Job Evaluation System Manual.

An evaluation will be conducted by the consultant appointed to conduct job evaluations using the Job Evaluation System Manual.

Reclassification

When the Department Head has determined that the content of an existing position has substantially changed, the Department Head shall submit a revised, signed job description to the Manager of Human Resources. Once received the job description will be reviewed and evaluated by the Consultant. If clarifying information on the changes is required, the employee may be asked to complete a Job Questionnaire or clarify details for the consultant by another means.

New Positions

All proposed positions, full-time or contract, will be approved by the Department Head in consultation with the C.A.O.; a job description is then to be submitted to the Manager of Human Resources for evaluation by the consultant prior to the commencement of the recruitment process. The factors of the Town's Job Evaluation System Manual will be used to establish the point value. The point value determines the salary grade.

B. RECOMMENDATION IMPLEMENTATION

The consultant's recommendations will be forwarded to the Chief Administrative Officer for approval.

When the decision is made and approved, a change will be made to the position grid. Salary changes as a result of a decision will be implemented on the date the job description has received final approval from the C.A.O. When determining the proper step placement in the new grade band, a minimum increase of 3% over the current salary matched at the next highest step in the new band will be processed.

Staff members who require information regarding a decision may discuss the matter with the designated Human Resources staff.

The Chief Administrative Officer may ask the consultant to review any position.

C. ROLES AND RESPONSIBILITIES

A designated Human Resources staff will administer, track and communicate results of any evaluations.

Should the consultant require clarification in order to evaluate a position, the staff member and/or the supervisor of the position being evaluated will be asked to meet with the consultant. His or her role will be:

- To represent the job in question as accurately as possible.
- To answer all questions posed by the consultant.

D. JOB EVALUATION INFORMATION

Upon request, an employee will have access to the job evaluation information contained in the Rating Rationale pertaining to their own position. The Rating Rationale provided for purposes of the appeal process will not contain the scores for each evaluation factor but will contain information on the activities outlined in the job description that were deemed significant enough when measured against the evaluation factor to warrant inclusion in the rating process.

E. APPEAL PROCEDURES

- 1) The incumbent or Department Head, who wishes to appeal the decision of the evaluation completed by the consultant must submit a written request to the Manager of Human Resources, within thirty calendar days, of the notification of the decision. An appeal received after the deadline will not be accepted, unless there are mitigating circumstances. These circumstances shall be decided upon by the Manager of Human Resources.

- 2) The appeal will include information to substantiate the request. The information should address each factor individually and identify any information that may be missing or may require further clarification.
- 3) The consultant will review all information gathered through the appeal process and submit a decision, which will be presented to the C.A.O., Department Head and the Manager of Human Resources.
- 4) A designated Human Resources staff will document the appeal and communicate to the employee within thirty days the results of the consultant's recommendation. The decision of the appeal ~~review~~ will be final and binding.
- 5) The decision shall be retroactive to the date that the Job Description has received final approval by the C.A.O. Any changes in remuneration will reflect that date.
- 6) An employee may request a review and re-evaluation of their job duties as contained in their job description. This request will be made of the Department Head, if there has been a substantial change in job duties. If the request is denied by the Department Head, the employee may appeal. This appeal will be submitted in writing to the Manager of Human Resources, within seven days of the denial, with substantiating information, as outlined above. The Manager of Human Resources will review the submission and may contact the employee and Department Head for further clarification. This policy applies to all employees, including elected officials accessing the email system. For the purposes of this policy, "employee" shall include elected officials. "Email" includes all internal business and personal communication on the Microsoft Exchange system of the Town.

Legislative Requirements

The Municipal Freedom of Information and Protection of Privacy Act MFIPPA governs the collection, use and disclosure of information by the Town. ~~The Act~~ MFIPPA applies to information in both hard copy and electronic form. Therefore, email communication is subject to the provisions of the Act.

In the FOI Act under MFIPPA, a "record" is defined as:

"any record of information however recorded, whether in printed form, on film, by electronic means or otherwise, and includes:

- a. correspondence, a memorandum, a book, a plan, a map, a drawing, a diagram, a pictorial or graphic work, a photograph, a film, a microfilm, a sound recording, a videotape, a machine readable record, any other documentary material, regardless of physical form or characteristics, and any copy thereof, and

- b. subject to the regulations, any record that is capable of being produced from a machine readable record under the control of an institution by means of computer hardware and software or any other information storage equipment and technical expertise normally used by the institution."

As noted above, an email message clearly falls within the meaning of a "record" whether printed out or not.

The other portion of ~~the FOI Act~~ MFIPPA is the protection of personal privacy. ~~The definition of "personal information" is~~ Personal information is defined as:

"recorded information about an identifiable individual, including,

- a. information relating to the race, national or ethnic origin, colour, religion, age, sex, sexual orientation or marital or family status of the individual,
- b. information relating to the education or the medical, psychiatric, psychological, criminal or employment history of the individual or information relating to financial transactions in which the individual has been involved,
- c. any identifying number, symbol or other particular assigned to the individual,
- d. the address, telephone number, fingerprints or blood type of the individual,
- e. the personal opinions or views of the individual except if they relate to another individual,
- f. correspondence sent to an institution by the individual that is implicitly or explicitly of a private or confidential nature, and replies to that correspondence that would reveal the contents of the original correspondence,
- g. the views or opinions of another individual about the individual, and
- h. the individual's name if it appears with other personal information relating to the individual or where the disclosure of the name would reveal other personal information about the individual."

Guidelines for the Use of Email

With the above information in mind, the following guidelines have been developed and should be observed when using email.

Do not include comments or statements in your email message that you would not include in a memo or letter.

If you need to include a comment to explain the information that you would not include in a memo or letter, tell the recipient in person. If comments are made in the message and it is printed by the recipient and placed on file, it becomes part of the record. If a formal Freedom of Information (FOI) request is made concerning the subject, the comments may have to be released. This could be very embarrassing, not only for the individuals that made the comment, but also for the Corporation.

If an action needs to be recorded for future reference, email can still be used.

Email is a quick and easy method of communicating information. In order to maintain its efficiency, email can be used where an inter-office memo was used in the past.

If you feel a paper trail is needed regarding action to be taken, the message may be printed and placed on file or saved as a text file in the appropriate corporate repository. Email messages and responses should be created with the thought in mind that the message may be printed, placed on file or distributed to others.

If you have to report information that you don't want released, mark the message confidential, which will be a "flag" in the processing of a formal FOI request, or better still phone the individual to pass on the information. Confidential notes may be released if they do not fall into one of the exemptions of ~~the FOI Act~~ MFIPPA.

Filing of ~~E-mail~~ Email Messages

As noted in this policy, email messages can be printed and placed on file for future reference. When creating a message that will be printed for filing, the appropriate file number should be included. The file number may appear in the "Subject:" line or in the body of your message.

Ownership

All messages and documents created on any of the electronic systems of the Town are the property of the Town of Halton Hills.

Monitoring

Notwithstanding its right to access electronic documents, the Town does not routinely monitor communications via email. However, the Town monitors the Exchange email system and/or access individual email as required for any legal obligations. This is done to protect the Town's interests in case of reasonable suspicion of crime, or to

ensure that the business of the Town can continue, or if there is another legitimate business need to do so.

In the event that an employee leaves the Town's employ, he or she has no further right to access the email system. Access rights are terminated immediately. Further, the employee's supervisor may establish proxy access to the employee's email and calendar so that outstanding issues can be dealt with.

Usage

Accessing another individual's email for non-business reasons is not permitted. Employees are expected to use good judgement and to demonstrate a sense of responsibility when using email.

Business Communication

In the event that the email system is used inappropriately, disciplinary action, in accordance with the particular circumstances, may be taken. Any disciplinary action is governed by the Personnel Policy Manual— (PPM). Corporate business communication is the primary purpose of the email system of the Town. An email message is a business record in the same way that a memo or letter is a business record. Therefore, email business communication should be treated in the same manner, as any other business correspondence, i.e. communication that is inappropriate under the Town's logo, is inappropriate in email. Information that would not be released in hard copy form should not be released in electronic form.

Personal Communication

Limited, occasional or incidental use of the email system of the Town for personal communication is acceptable, provided the privilege is not abused.

Privacy

Employees must be aware that their messages, both business and personal, may not be completely private, i.e. the Town may be required to access the information; the recipient may have authorized another person(s) to read his or her mail; the message can be forwarded to another party, or printed. Employees who wish their communications to remain completely private should consider another medium or method of communication.

Confidentiality

Generally, information which is sensitive or confidential in nature (such as personal information about individuals, employee performance or other human resource issues,

information regarding issues to be discussed in camera, etc.) should not be sent via email, since absolute privacy cannot be guaranteed. Staff should consider another medium, before sending the message via email. When it is necessary to send sensitive or confidential messages via email, both the sender and the receiver are responsible for safeguarding the information.

For example:

- The message should be sent, or forwarded, only to those having a legitimate business need to know the information
- ~~Appropriate system safeguards must be utilized to ensure confidentiality (i.e. the Sender must enact the “mark message private” feature; staff should severely restrict proxy access to private messages; staff should consider password-protecting their mailboxes).~~ Information Technology Services staff are available to provide assistance in implementing system safeguards.
- Once the message has been sent or dealt with, it should be printed and filed (if necessary) and deleted from the system

Information Not Appropriate for Email

While it is not possible to provide an all-inclusive list of inappropriate email communication, there are certain types of information that should not be communicated via email. These include, but are not limited to, the following:

- Information which is, or may be, offensive or disruptive (such communication could constitute workplace harassment - refer to the Personnel Policy Manual)
- Information which is derogatory to any individual or group, or which is defamatory or threatening in nature
- Information that is disseminated for a purpose that is illegal or for a purpose, which contravenes the policies of the Town or which, is not in the interest of the Corporation
- Information for promoting or advertising a business

Appropriate Use of Technology

Email should not be used in a manner that is likely to cause network congestion or significantly hamper the ability of others to access and use the system. For example:

- Messages destined for all employees should be sent via email only when all employees have a significant business need to know the information
- Messages destined for all employees, using the “Everyone HHILLS” distribution list must have the approval of their supervisor or manager before sending. Failure to do so is a disciplinary matter
- Email allows recipients to respond either to the sender only, or to the sender and all recipients. Responses should be sent only to the sender, unless the response is significant to all recipients
- ~~Email messages must be deleted from the system when no longer needed based on established records retention policy. Information Technology will purge e-mail after a specified period, in accordance with the Town’s record retention policy and can provide guidance on how to archive messages that need to be retained~~
- Chain mail creates unnecessary traffic on the network, and is therefore not permitted
- Staff should ensure that their electronic calendars are kept current to enable electronic scheduling of appointments, and that their individual address book information is accurate
- The inclusion of the sender’s business telephone number at the bottom of email messages will assist the recipient if a telephone response is required or appropriate
- Employees are responsible for all electronic mail sent from their individual user name, and should take appropriate precautions to ensure that passwords are changed regularly and not shared

Records Retention

Email messages are subject to the same retention requirements as hard-copy messages. ~~After one year, email messages will be purged for that year, starting on January 1st of a calendar year. If the information should be retained, it should be printed and file, saved as a text file, or archived in a Personal Folder. The electronic copy can then be deleted. An alternative is use of “Personal Folders”. Personal Folders will store messages in a special file on your hard drive. This is recommended for staff who require retention of an extraordinary amount of e-mail messages beyond their normal time.~~

Electronic Messages as Official Records

An electronic message and any associated content (including attachments) that provides proof of service, evidence of decisions and actions, or documents the output of a process, operation or other activity by the Town is deemed to be an Official Record and must be captured and preserved. Electronic messages that are Official Records should be maintained according to the corporate records retention schedule.

Electronic Messages as Transitory Records

Transitory and personal electronic messages can be destroyed as soon as they are no longer useful. Transitory means the record does not document a business transaction, activity or decision and has only temporary value. Transitory records do not set policy or procedures and are not required for legislative, regulatory, legal, fiscal or operational purposes.

Documents that are needed for a limited time to complete a routine action or to prepare an official record are considered transitory and can be destroyed when the accuracy or completeness of the action has been verified or deemed correct. Some examples include the following: personal messages, miscellaneous notices, messages on upcoming special events, minor administrative details, convenience or duplicate copies of official records, publications and manuscripts, unsolicited advertising and preliminary drafts which do not introduce significant changes in preparation of a final document and do not document official decisions.

Responsibilities

All employees are responsible for:

- using email appropriately
- ensuring that confidential information is handled appropriately, including limiting proxy access as required
- providing proxy access to their supervisor or designated individual during extended absences if desired/required
- adhering to established guidelines regarding passwords and access rights
- purging messages that are no longer required
- ensuring that electronic calendars are kept up-to-date
- ~~advising Information Services of any changes to their address book information, such as name changes, extensions, etc.~~
- reporting any abuses of the email system to their supervisor and/or to the Manager of Information Technology Services

- ensuring that they have permission from their supervisor or manager before sending an “Everyone” email

Supervisors and Managers are responsible for:

- ensuring that employees under their supervision are aware of this policy
- ensuring that access rights of employees who terminate are rescinded, in a timely manner
- arranging temporary proxy access to terminated employees email systems for a limited time to ensure that issues are addressed
- ensuring “Everyone” emails are approved prior to sending by staff and that they are relevant to the information needs of all staff

Information Technology Services staff are responsible for:

- ensuring that the Town’s email system is efficient and appropriate for the needs of the Corporation
- providing email training
- providing guidance and assistance to users on efficient email practices

Schedule H Computer Use Policy

Introduction

This policy applies to all electronic networks, owned and/or operated by the Town of Halton Hills, including personal computing devices when using the Town's electronic networks. Employees accessing the Town's electronic networks both in the course of their employment with the Town or from home using their own personal equipment will be bound by the policy. The Town of Halton Hills wishes to act in a pro-active fashion, protecting employees from potential harm caused by electronic viruses, spam, harassment, and other potential electronic information hazards.

Discussion

The Town of Halton Hills' corporate information technology infrastructure allows employees access to an extensive computer network and productivity tools through microcomputers. While ~~electronic~~-email is a very fast and efficient means of communication, it requires a certain amount of caution and restriction in its use. The Internet can also be a valuable tool to support the business endeavours of the Corporation, but again there may be risks involved that require caution on the employee's part.

E-Mail~~Email~~ Fundamentals

Email is not inherently private – email is almost always recoverable and is considerably more difficult than other forms of voice or written communication to eliminate. Most email systems have the ability to store transmissions sent and received in a central ~~bank~~-server where it can later be accessed or searched electronically by date or specific topic. Copies of transmitted and deleted email may be stored for months and even years on system back-up files and/or personal archives of recipients. Unauthorized access and the ease with which email can be reproduced, distributed and redistributed further emphasize the privacy risks associated with email.

Email files can easily be transferred and redistributed – once email is sent, the originator loses control over what the recipient does with it. Email can be reproduced, distributed, and redistributed without the knowledge of the original author. As such, the intended recipient of the transmission may not be the only person accessing the transmission.

Internet use and Email can be monitored

~~Most~~ Internet and email utilization can be monitored for both incoming and outgoing activity without the knowledge of the user. ~~Because most organizations have an interest in how their resources are being used, the Town's systems are capable of this type of monitoring.~~ There is often a false sense of anonymity that accompanies Internet access, and staff should be conscious of this risk.

The transmission of personal information in electronic format, the ability to monitor Internet and email activity from a remote site without detection, the ability to retransmit email without the originator's knowledge, and the ease with which third parties may access or reproduce another's email all underscore the risks to personal privacy by using electronic technology.

External Email (email entering and leaving the Town's network)

In an attempt to prevent computer viruses from entering the Town's network, all incoming ~~Internet~~ external email is monitored and any that are deemed inappropriate, based on pre-defined "best practices" criteria, are quarantined. An administrator then evaluates any attachments or emails for virus risk or appropriateness.

Deliberate blocking of emails from specific senders is performed at the request of individuals. This is generally done to stop junk-spam mail.

Information Services has the ability to access and view outbound email, in order to ~~ascertain~~ ensure security measures and to assess email system performance.

Internal Email (email between employees within the Corporation)

Information Services can track a particular email; identify the source and destination.

Mailbox sizes are limited to manage disk space. There is a size restriction on all individual emails sent. The Email Usage Policy sets a restriction on staff use of corporate-wide email broadcasts. The policy restricts the use of the broadcast mechanism for non-business related material.

Web Browsing

The Town attempts to prevent staff from accessing web sites that are deemed inappropriate through the use of a filter. System administrators can identify which web sites staff are accessing; by default these inappropriate sites are blocked. However, under certain circumstances, staff may have a legitimate need to access these blocked sites. In these cases, the employee should make a written request to their Area Manager, including the site name required and the justification for why access is required. After approval, the Area Manager forwards the request to the HR Manager and IS Manager for filing of the request and granting of access.

Electronic evidence is admissible in legal proceedings

Email transmissions, electronic calendars and other forms of electronic records are generally admissible into evidence in the course of legal proceedings. This is particularly important because email communication tends to be spontaneous and often takes on the characteristics of a telephone "chat". Whereas people may keep records of telephone conversations, the conversations are rarely taped. Their use in a legal proceeding may therefore be of limited value. However email transmissions prepared

casually and without due caution may contain statements or admissions that can be damaging in a legal proceeding.

Inappropriate use of electronic technologies can result in violations of the Criminal Code, human rights legislation, breaches in corporate policies

The circulation of profane jokes, pornographic material, discriminatory statements, or hate material violates the Town's policy against harassment and discrimination and may contravene the *Ontario Human Rights Code*. In addition, the electronic downloading, possession and redistribution of inappropriate material (e.g. sexually explicit information, hate mail, racially offensive material, and/or profanity) may constitute a violation of the provisions of the *Criminal Code*. Anyone who transmits or delivers material that is obscene, indecent, immoral or scurrilous may also be in violation of the *Criminal Code*.

Employers can suffer civil or criminal liability for the actions of their employees

Turning a "blind eye" to the activities of employees at work and using Town resources can result in the employer being charged under the provisions of the *Ontario Human Rights Code*. It can result in an employer having to defend itself in a human rights complaint, or can result in civil suits against the organization in cases such as defamation suits. Employers have a legitimate interest in monitoring the utilization of its employees' electronic activity while at the same time extending as much privacy to its employees as it can without placing at risk its own legal obligations.

COMPUTER USE POLICY OBJECTIVE

To ensure that employees authorized to access the Town of Halton Hills' electronic networks use those networks in a manner that is lawful, that is compliant with the Town of Halton Hills policies and procedures, and that best protects the interests of the Town having regard for the privacy interests of its employees and the public.

AUTHORIZED USE

The Town of Halton Hills has a proprietary interest in its electronic networks, including computer hardware and systems necessary for the operation of electronic communication, including its email service and Internet access. The Town authorizes the use of its electronic systems for purposes related to the business of the Corporation of the Town of Halton Hills. The Town further authorizes the personal use of its electronic networks provided such use is reasonable, does not interfere with the Town's business and performed on the employee's personal time. All authorized use, whether for Town business or personal use, must be lawful, in keeping with the Town's policies and procedures, and consistent with the best interest of the Town.

Unauthorized use includes but is not limited to unlawful activities, contravention of federal and provincial statutes, actions that may make

an individual or an organization liable to a civil lawsuit, and contravention of the Town's policies and Code of Conduct.

Note: Refer to SCHEDULE A Section D - CONFIDENTIAL INFORMATION for restrictions on use of Town logo and information on the internet.

MONITORING OF ELECTRONIC NETWORKS

The Town reserves the right to monitor its electronic networks for work-related purposes in order to assess system or network performance, protection of Town resources and to ensure compliance with the Town's policy. Monitoring may be conducted without notice where the Town has reason to suspect unauthorized use of its electronic networks.

PROTECTION OF PRIVACY

Electronic forms of communication are subject to the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA) and its regulations respecting the collection, use and disclosure of personal and other protected information. Email messages and records of Internet access are considered corporate records and are therefore subject to formal access requests made under the Act. Electronic records are also admissible as evidence in a court of law or before a tribunal. In order to protect personal privacy, the following guidelines are required:

- Discretion should be exercised before sending any email that contains sensitive or personal information.
- The MFIPPA limits disclosure of personal information to those persons who require such information in the performance of their duties. Distribution of personal information to others may constitute an unjustified invasion of personal privacy.
- Protect against unauthorized access to email systems through password protection. Do not share your password with anyone.
- When you leave your desk, lock the screen or log out to ensure that your electronic network systems are not accessible by others.
- Sensitive personal and confidential business information intended for recipients outside the Town should be sent through conventional means, such as confidential mail. None of the security features of the Town's electronic systems are present once the message leaves the Town network. Your messages will not be automatically encrypted during transmission. While on the Internet, your messages will likely pass through a number of systems, none of which are governed by the Town's security measures.
- Report any breaches of privacy or unauthorized disclosure to the Manager of Information Services, your respective Department Head and the Manager of Human Resources.

CONSEQUENCES OF NON-COMPLIANCE

Breaches of the electronic network policy shall be reported immediately to the appropriate Department Head and the Manager of Human Resources. Employees found to have engaged in a breach of the electronic network policy will be disciplined appropriately and such disciplinary action could range from removal of electronic network privileges to the termination of employment, in accordance with the Personnel Policy Manual. It is the responsibility of the employee to become familiar with the Town's policies, Personnel Policy Manual and Code of Conduct. If you require any of these documents, please contact your respective Department Head and/or Human Resources.

Department social media editors may post on the Town's official social media platforms, respecting the Corporate Social Media Calendar overseen by the CS-Digital.

If you are posting/communicating on behalf of a Town department or program, all applicable Town policies and procedures must be followed. Failure to comply with these guidelines and the Town's Code of Conduct is a serious matter and may result in disciplinary action. For questions regarding information contained in this document or concerning the use of digital channels in general, contact the CS-Digital.

Principles and procedures as outlined in the Town's Code of Conduct, Workplace Discrimination & Harassment Prevention, Electronic Mail and Computer Use policies also govern Council and employee's digital communications activities.

Guiding Principles

Always:

- Be Transparent
- Safeguard the Town's image and reputation
- Protect Privacy
- Be "On the Record"
- Apply Common Sense

1.0 Transparency Be honest about who you are, and what you do

If you are representing the Town in social media, identify yourself as a Town of Halton Hills staff, elected officials or citizen appointee; never conceal your identity or assume a "ghost identity"

Be transparent; be open and only provide truthful, clear and accurate information

Don't overreact to, or repeat, rumours. Get the facts straight before you post on social media. Confirm the information; do not rely on second-hand information, even if it is something that seems familiar and especially if it involves a third party

Correct misinformation immediately, but only if it is significant

Do not engage in a discourse simply because you disagree with a person's opinion or views. People are entitled to make fair comment and express views that may differ from a Council or Town decision

Social media channels managed by the Town and branded with the Town's identity should only promote the Town's goals and objectives, and should never be used as a platform to promote individual interests or political points of view. Remember that corporate information is provided on the Town's designated, managed channels and this is where official information from the Town is made available

2.0 Safeguard – Preserve the Town's image and reputation as well as your own

Ensure that the Town's managed and branded social media sites are managed in a manner that positively enhances the Town's reputation.

Never reveal classified, confidential or sensitive information.

Before responding to controversial or sensitive online content about the Town, its business, its staff, elected officials or citizen appointees seek the advice and act in compliance with direction from Corporate Communications.

When in doubt about posting – get approval from Corporate Communications.

If you spot a potential issue that may need a corporate response due to the potential magnitude of the issue refer it to Corporate Communications.

If you are accessing a social media site on a portable device, such as a smartphone or tablet, be sure to take the time to ensure you have accessed the proper account. It is easy to mistake a corporate account for a personal one.

Do not identify yourself as an employee on personal social media sites. The exception is LinkedIn, or a similar social media site that is used for professional networking. In that case you can indicate where you work and your title. In doing so, be sure that anything you say and post is consistent with these Guidelines. I

3.0 Privacy is paramount

Do not share third-party personal information – it's not yours to share.

Adhere to provisions in Ontario's Municipal Freedom of Information and Protection of Privacy Act (MFIPPA) and the Town's Access to Information and Protection of Privacy Policy and the Town's records retention, privacy, and accessibility rules.

Respect copyright laws: Don't reproduce or borrow content that violates trademark or copyright laws. Don't use trademarks, logos, images, music or other copyrighted content without prior authorization.

If you want to include a photo of a Town employee, you must have them sign a waiver (on intranet) in advance. Photo permission is not required of large groups at a public event or for a photo submitted via a social network. If you stage a photo, declare that you will be posting it in on a social network site and ask for permission.

Comments and messages requested or gathered by the Town, and collected for the public record using social media, will be treated the same as any other form of communication received by the Town and will be subject to the provisions of MFIPPA.

4.0 Be On the Record

You are on the record with every post. You are responsible and accountable for what you say.

A social media post is public – use the same approach you would use when talking to a journalist. If you would not tell it to a journalist – then don't post it.

Think twice before posting: Never post anything you wouldn't want repeated to your supervisor or appear in the news.

Privacy is difficult to safeguard in social media. Once a post is made it can never be completely removed. Any post has the potential to become widely distributed regardless of your intended audience.

Consider the consequences – once you share something, you can't get it back.

If you make a mistake, admit it immediately. Be honest and sincere, and be quick with your correction.

5.0 Use Common Sense

Engage in respectful informed conversation and never attack another person or entity. Never criticize constituents or fellow employees.

Always be fair and courteous.

Respect your audience. There is zero tolerance for threatening, offensive or harassing language.

Never post when you are angry – be calm and get an opinion from an impartial party on the tone of your response before you respond. Avoid a reactionary response to negative comments.

You are not expected or required to respond to every post. If a question is posed, then a response should be provided. On occasion, negative comments will be posted; some people vent using social media channels and no response is necessarily required. If you feel it is necessary to respond to provide clarification or information, then you may do so, but proceed with caution. Avoid a reactionary or inflammatory response. Instead,

take the time to think through a courteous and helpful response that may result in a positive conclusion. If you are uncertain, consult with Corporate Communications. Respond to positive feedback, with a thank you and acknowledgement.

Don't post during social situations or leisure time when other influences may cause you to regret your post later. A good rule of thumb is: don't post if what you have to say would embarrass your mother.

6.0 What you should never disclose or discuss online

The following are examples of the type of statements or information that should never be posted online. The examples include, but are not limited to:

Defamatory or Derogatory Comments: Do not post any comments that are defamatory or derogatory to the Town, other employees, residents, or anyone with whom you communicate digitally, or any comments that could otherwise negatively impact their interests.

Personal Information: Never share personal information regarding other employees, residents or contractors, including, but not limited to, contact information, user names and/or photographs.

Legal Information: Town of Halton Hills related legal issues, legal cases, or legal counsel.

Confidential Information: Do not publish, post, or release information that is considered confidential and/or sensitive.

Professional conduct

Social media is informal, so be informal online, but don't compromise on professionalism. Employees who post on social media through Town accounts must:

- Maintain a respectful, constructive tone;
- Stick to the facts and refrain from debates over matters of strict opinion;
- Never launch personal attacks or make defamatory or offensive (racist, sexist, lewd etc.) statements;
- Refrain from making partisan, political comments while speaking as a government employee;
- Not criticize policies of the Town or government;
- Reflect our core values.

Guidelines for General Staff

The Town's purpose in participating in social media is to connect with our community, employees and other stakeholders in the spirit of education and engagement. We encourage active participation in online social networks within the boundaries of the Town of Halton Hills Social Media Guidelines and in adherence to the tenets of the Town's Public Engagement Charter.

If you encounter social media content relating to the Town that you feel requires an official response, bring these to the attention of the Manager of Corporate Communications.

Town of Halton Hills Social Media and Digital Communication Guidelines: For Staff, Elected Officials, Citizen Appointees and Contractors

About the Guidelines

The Social Media and Digital Communication Guidelines for Town of Halton Hills staff, Elected Officials, Citizen Appointees and contractors are guiding principles to be followed and adhered to when an elected official, citizen appointee or contractor engaging in communications via social networks and online media for personal and/or professional matters. This includes communication on official Town social media channels/properties and/or personal social networking channels and/or other third party social networking and/or online channels/properties on which employees or external suppliers choose to engage in online conversation.

The Guidelines apply to all elected officials, citizen appointees, permanent, part-time and temporary employees of the Town of Halton Hills and other authorized individuals issued with valid Town access accounts such as individual contractors, consultants, students and interns (“employees”). Where required by contract, these guidelines shall also apply to any third-party company or business not affiliated with the Town, or an individual who is not an employee of the Town, where such company, business or individual is supplying goods, services or professional expertise to the Town (“contractors”).

Overarching Guidelines to follow when participating in online conversations

While the primary focus of these guidelines is social media that occurs through Town accounts and or activity on Town equipment and during work hours, they are also applicable beyond the workplace. Staff, elected officials, and citizen appointees are strongly urged to adhere to the following guidelines whether using Town of Halton Hills equipment (i.e. desktop, laptop, BlackBerry™, iPhone™, etc.) or personal equipment, both during work hours as well as on personal time. In the world of social media, the lines are often blurred between personal and professional comments. Tread very carefully at all times. Assume anything you post can and will be read and cause you or the Town difficulty. As per the Code of Conduct, it is important that staff, elected officials, citizen appointees and contractors maintain high standards of personal and professional conduct. It is imperative that the trust and confidence from the Corporation and from the community is maintained. This is accomplished through conduct that demonstrates integrity, competency and impartiality.

I Will Not Misrepresent Myself

Whether discussing issues that are personal or professional make it clear that the views expressed are your own. If your relationship with the Town becomes known, you must make it clear that the views expressed do not reflect the opinion of the Town of Halton Hills. Unless you have been designated to do so, you are not authorized to speak on behalf of the Town. Any comments made on behalf of the Town must be done through official Town social media or email accounts and not personal accounts. Do not portray yourself as a spokesperson, or an “unofficial spokesperson” of the Town of Halton Hills.

Act responsibly and ethically

You are responsible for what you write at all times. Be honest about who you are while ensuring you do not disclose your personal information. Always be aware of the fact that your online engagement should never compromise your integrity and/or credibility as a Town employee or contractor.

Be respectful and fair

Respect co-workers, former employees, customers and partners and those with whom you engage in online conversations. If you participate in any discussions with intrinsically personal implications or overtones such as, among others, those of a religious, political, racial and/or sexual orientation nature, always use caution and good judgment. Remove yourself from conversations that are not on topic or become offensive or profane.

Town social media and email accounts may not be used to assist with an individual's municipal election campaign. Please see Use of Corporate Resources during a Municipal Election Year for further details.

In addition to this overarching guideline, employees and contractors are reminded of the specific reference to political activity as described in the Code of Conduct:

'Employees and contractors are also reminded that the Town of Halton Hills' Workplace Discrimination & Harassment Prevention Policy extends to social networking sites.'

Remember that online communication is forever. Assume that the content you publish online is permanently and publicly available, forever. Make sure that what you say online represents you well. Think before you write.

If in doubt, ask for guidance. Contact the Manager of Corporate Communications at ext. 2412.

Comments	<p>Our Kids Network (OKN) Halton is a multi-sector collaboration that is guided by its protocol partners and is committed to the healthy development and well-being of children, youth and families. Locally, the Acton HUB of OKN further focuses on the specific needs identified within the Acton community. Partners include the Town of Halton Hills Recreation & Parks, both Halton school boards, Links2Care, Community Living North Halton, Halton Children's Aid Society and the Region of Halton.</p> <p>The Acton Early Years Fun Fair will engage families and parents of kindergarten children that will be entering schools in Acton and will provide them with information regarding access to community resources and supports available. The educational component will be coupled with fun family activities and food. The event attracted approximately 200 community members in previous years. The event will be held at Prospect Park on Wednesday, August 28th, 2019.</p> <p>This collaborating group has come together with no specific resources allocated to efforts supporting children and families in these crucial early years. The additional rental space of the multi-purpose room at the Acton Community Centre will require an increase of costs, to an already limited budget.</p> <p>In 2018 and multiple previous years, Committee chose to approve the waiver of fee proposal for the Fall Fun Fair based on its own merits.</p>

Community Partnership Program Policy

Staff have worked with Community Organizations that utilize the current Municipal Assistance Program to gain the best understanding of the benefits of the program on their events and programs. Feedback from the Council Workshops and the Community Organizations will be consolidated into proposed revisions to the policy for Committee's consideration. Staff will be providing an update in later in 2019.

RELATIONSHIP TO STRATEGIC PLAN:

- A.2** To attract and retain a suitable range of health and social services.
- A.3.** To provide a broad range of educational, recreational and cultural services that meet the needs of our residents.
- A.9** To support and enhance a variety of arts and cultural opportunities for the enjoyment of residents.
- A.10** To encourage and promote community volunteerism.

FINANCIAL IMPACT:

The Municipal Assistance Program 2019 budget (Appendix A) does not contain funds to support all requests in this Report. All anticipated returning requests for 2019 have been received though new requests may be received throughout the year. The program is over budget by \$24,220.95 or 23%. Staff will report back in the fall of 2019 once the actuals are finalized to address any funding shortfall from the Tax Rate Stabilization Fund. In past years, the funding shortfall at year end has been lower due to reconciliation of applicants' costs being less than budgeted, or a reduction in submissions in all categories (e.g. special projects). However, due to increasing program requests and rates for Town services (waiver of fees), annual costs have risen and the budget has not been increased since 2013. The program has been over budget for the past 3 years, based on applications approved by Council.

CONSULTATION:

Organizations requesting assistance were provided with information and support from Recreation and Parks Department staff. Where appropriate, staff in other Departments were consulted.

PUBLIC ENGAGEMENT:

No public engagement was required at this time.

SUSTAINABILITY IMPLICATIONS:

The Town is committed to implementing our Community Sustainability Strategy, Imagine Halton Hills. Doing so will lead to a higher quality of life.

The recommendation outlined in this report advances the Strategy's implementation.

This report supports the cultural vibrancy and social well-being pillar(s) of Sustainability and in summary the alignment of this report with the Community Sustainability Strategy is Good.

COMMUNICATIONS:

Upon authorization, staff will notify all applicants in writing with the outcome of Committee's decision and assist applicants with the processing of their requests.

CONCLUSION:

The Town of Halton Hills appreciates and recognizes the value and benefits of working in collaboration with agencies, governments, businesses, groups and individuals as demonstrated in the Corporate Strategic Plan and the Municipal Assistance Policy.

As a result, Council for the Town of Halton Hills established a municipal assistance program budget and criteria for determining eligibility for receiving municipal support. All proposals received are reviewed and evaluated for eligibility. Staff request Committee's evaluation of the Municipal Assistance Program proposals received for this review period.
