Notes:

- The Secretary-Treasurer requested a recess at approximately 7:15 p.m. as an individual who wished to speak had disappeared from the virtual platform. Calls were placed and by approximately 7:30 p.m., the individual had rejoined, and the hearing resumed.

Oral Submissions:

- Bert Arnold, Arnold Foster LLP (spoke on behalf of owner/agent)
- Don Robinson, Glen Williams Community Association
- Joan Griffin, 17 Credit Street, Glen Williams

The Director of Development Review explained the proposal, referenced received objections from residents, and mentioned the OMB settlement related to the subject subdivision. Indicated that staff must evaluate the requested variances against the four tests, separately from the planning process that led to the creation of the affected lots. Noted no objections to approval, subject to conditions.

Bert Arnold noted that all the conditions of the OMB settlement have been complied with, and the subdivision has been registered; the garage designs meet architectural design guidelines approved through the subdivision process; the detached garages provide elevation variety; and that if the garages were attached, no variances would be required.

Don Robinson spoke against the application, and noted that there are 7 variances; the variances are not minor; the height and lot coverage rules established for the development should be adhered to; and that he does not agree with the Planning report.

The Director of Development Review addressed visual impact and noted that these garages will be half the height of the rooftop of the house currently under construction that is visible from an adjacent street; and confirmed that if the garages were attached by a breezeway, the variances would not be required.

Joan Griffin spoke against the application, and noted that this development was supposed to fit in with the Hamlet, but now the developers are coming back for variances that go beyond the established criteria.

Bert Arnold responded that if the variances were foreseen, they could have been accommodated for, but that the architectural designs for the development require the garages to be detached.

Committee deliberations included: no variances would be required if the garages were attached; future homeowners could come before the Committee requesting variances; and that each application is reviewed based on its own merits.

It was MOVED by Thomas Hill, SECONDED, and CARRIED

THAT the application be approved, subject to conditions.

Dear Head of Council:

Our government believes everyone deserves a safe and affordable place to call home. Inadequate supply and high housing costs have made housing unattainable for too many people in Ontario. We want to reduce red tape and streamline development approvals so that we can help to put affordable home ownership in reach of more Ontario families, and provide more people with the opportunity to live closer to where they work.

That is why I am pleased to provide you with this [Site Plan Control Guide](#). This guide provides an overview of site plan control and shares best practices from some communities across Ontario which municipalities may consider implementing to make the site plan process more efficient.

The Site Plan Control Guide also works to support The Provincial Policy Statement, 2020 and other recent changes to the land use planning system – including changes to the *Planning Act* through Bill 108, the *More Homes, More Choice Act, 2019* and to A Place to Grow: Growth Plan for the Greater Golden Horseshoe. Collectively, these changes support key government priorities of increasing housing supply, supporting job creation and reducing red tape – while continuing to protect Ontarians' health and safety and the environment, including the Greenbelt.

If you have any questions about the Site Plan Control Guide, please email the Ministry at provincialplanning@ontario.ca.

Sincerely,

A handwritten signature in blue ink that reads "Steve Clark".

To Whom it May Concern:

Please be advised that the Council of The Corporation of the Municipality of Leamington, at its meeting held Tuesday, July 13, 2021 enacted the following resolution:

No. C-208-21

Whereas the current joint and several liability regime as set out in the Negligence Act financially impacts all municipalities across the province whether or not a claim occurred within a municipality's borders.

Whereas municipalities are often added to claims as they are seen as having significant resources with the backing of taxpayers.

Whereas insurance companies ultimately recover their losses by way of, among other things, increased annual premiums from their insureds.

Whereas the Municipality's total annual cost of all insurance premiums has grown by \$148,869.28 over the last 5 years which equals a percentage increase of approximately 23%. Liability insurance premiums account for \$64,638.68 of this amount, an approximate 16% increase when comparing premiums from 2017 to 2021.

Whereas higher insurance costs diverts property tax dollars from delivering public services to the Municipality's residents.

Be it resolved that Council supports the recommendations proposed by the Association of Municipalities of Ontario ("AMO") to address joint and several liability reform and rising insurance costs more generally, which recommendations include:

1. The provincial government adopt a model of full proportionate liability to replace joint and several liability.
2. Implement enhancements to the existing limitations period including the continued applicability of the existing 10-day rule on slip and fall cases given recent judicial interpretations, and whether a 1-year limitation period may be beneficial.
3. Implement a cap for economic loss awards.

4. Increase the catastrophic impairment default benefit limit to \$2 million and increase the third-party liability coverage to \$2 million in government regulated automobile insurance plans.
5. Assess and implement additional measures which would support lower premiums or alternatives to the provision of insurance services by other entities such as non-profit insurance reciprocals.
6. Compel the insurance industry to supply all necessary financial evidence including premiums, claims, and deductible limit changes which support its, and municipal arguments as to the fiscal impact of joint and several liability.
7. Establish a provincial and municipal working group to consider the above and put forward recommendations to the Attorney General.

Be it further resolved that Council direct Administration to forward a copy of this resolution to the Premier of the Province of Ontario and AMO

Carried

Dated today, the 17th day of August, 2021.

Brenda Percy, Clerk
The Corporation of the Municipality of Leamington

cc: Hon. Doug Ford, Premier of Ontario
