Please consider the values in the Town's Strategic Plan when you cast your vote

- Measuring your vote against the draft Town of HH values makes voting yes seem totally against what you are advocating for in the town values and priorities.
- Please don't think the \$\$\$ promised by Atura will help mitigate problems occurring from the Atura in HH. You only have to look at the amount the quarry contributes to the town to realize that it is a drop in the bucket compared to the extra costs that industry adds to budget needs in Halton Hills.
- Please do not kick the can down the road and vote yes- figuring that someone else in the coming years will be able to fix the environmental mess you are enabling with a yes vote.
- Thanks for listening- I respectfully ask you to vote no on the gas plant proposal.
