COMMENTS:

THE ROAD IS CURRENTLY DANGEROUS
DUE TO EXCESSIVE SPEEDING +
DISRESPECT FOR TRAFFIC RULES
IT IS IMPERATIVE THAT TRAFFIC
CALMING MEASURES ARE PUT IN
PLACE TO AVOID FATALITIES

(USE REVERSE SIDE IF REQUIRED FOR ADDITIONAL COMMENTS)

Completed forms can be delivered or mailed to:

Mrs. Teri Hoey, C.E.T.

COMMENTS:

OUR WELL IS NOT ATTACHED TO PIPE
BUT IS SPRING FED (BRICKED WALL
40' DEEP 8" DIA) REQUESTING A
RECOVERY TEST TO BE DONE BEFORE
AND AFTER PLANNED CONSTRUCTION
AT TOWN'S EXPENSE

P.S. DESIGN LOOKS GOOD AND IS
NICED BUT WHAT ABOUT GAS INTO
THE VILLAGE + INTERNET? CAN + WHEN TO

WOULD TOWN WATER + CABLE BE
CONSIDERED AT SOME POINT?

(3 WAY STOP AT WOLSELEY ST. & ELIZABETH
^{STREET}
WOULD HELP TO SLOW TRAFFIC
THRU VILLAGE) & ALLOW PROGRESSING A SAFER
CROSSING

NOTE

ARE THE LARGE GRAVEL TRUCKS GOING TO BE
COMING THROUGH THE VILLAGE AGAIN?

THERE IS A BIG INCREASE IN TRUCK TRAFFIC
LATELY. THEY COME INTO THE CLOSED QUARRY
ON THE 5TH LINE + CROSS THROUGH IT TO
THE 4TH LINE QUARRY. TO SAVE GOING
VIA #7

COMMENTS: There are a lot of positives
with the 22nd Side Road Reconstruction project.
However, our biggest concern remaining is
the speed of the traffic. We feel
with the straightening of the curve, the
speed is only going to increase. Has
there been any consideration for speed
bumps, stop signs, or flashing speed limits
with more signage?

Chris

A lot of good technical questions. I have copied Chris Mills and Dick Spear from the town who can get answers for you.

Hello all,

I was away for the meeting about the resurfacing of 22nd Sideroad, but I am generally quite pleased with the plans I'm seeing around the changes to our road. I do have a number of questions however:

1. I see that the water line is certainly on the list of concerns (someone shared a pdf of the presentation with me). I would like to know what (if any) info you need from us about the waterline. I don't know how much I can share with you - as I don't know a whole lot about what's underground - but clearly I'd like to help as much as I can - especially to ensure that the pipe is not damaged. I wonder too if the pipe can be upgraded in any way within this process (in terms of replacing the section that gets exposed, burying it deeper, and/or insulating it in some way).
2. I am glad to see the sidewalks and curbs planned for the redo - but do have concerns about the loss of the trees on the island out front of my house (11228 22nd Sideroad - or Newton Street as you've signed our little laneway (not Delaware St. as it's written on the plan BTW)). I wonder what involvement we can have in the saving of any of the trees that are currently there (we've finally got a bit of a visual block from the road - and I fear we're going to lose this), and/or input we can have about what goes back in after construction.

3. I am curious what phase two may look like? Is the sidewalk only planed for this little section of 22nd - or might it extend further East along 22nd in the next phase?
4. The location of the crosswalk is also kind of goofy for us folks East of the School. Currently there are many kids coming from this side of town on foot to school - and to be honest - with the crosswalk at the Western side of the parking lot - none of the kids really use it. They cross over at the Eastern edge of the school parking lot. Any chance a crosswalk at *this* end could be considered?

Many thanks, and I look forward to learning more about how I can help this project succeed,
Chris

Attachments: Limehouse phase 1.pdf

Good afternoon,

Our family shares water with the line that runs across 22nd sideroad. Enclosed is where the pipe for water line is and size of pipe.

Would it be possible to be on site when construction crew reach the area highlighted in enclosed attachment? We could help locate and inspect what is under the road . We also would like assurances that our line will be repaired should it be damaged. How far is the 1st phase going to reach? Is it going to be passed Elizabeth St. or before Elizabeth St. ?

Will this new construction in village stop the truck traffic on bridge and road?

Will there be another community meeting answering everyone's questions? I believe there should be another meeting prior to your final design and construction .

It is very refreshing to see some changes are going to be made around the school and road in our village.

Delaware St is mentioned below 22nd sideroad is this not Newton St?

Thank you for your prompt response.

Sincerely
Lizon Mick

Good afternoon Mrs. Hoey,

After last evening's presentation we discussed the spring water line which runs across 22nd sideroad and Elizabeth area.

Would you kindly forward the drawings which I can then forward to the neighbour's and to my son. They will be able to show where the water line runs.

Thank you in advance.

Sincerely,
Lizon Mick

Hi Teri,

Thank you for hosting the Community Open House in Limehouse. I think the residents appreciate being kept informed and included in the construction planning and process.

Could you please email a copy of the presentation to me?

In future, i think having a longer Q & A time would be beneficial and worthwhile.

Would you consider providing us with a copy of the presentation (perhaps, with a slide with your contact information/comment form) for the Limehouse Memorial Hall website? We would link it to the event descripton on the Events page. limehousemh.wixsite.com/hall
Thank you.
