## **PART A – THE PREAMBLE**

### **PURPOSE OF THE AMENDMENT**

This Amendment is intended to facilitate the expansion of the Milton Quarry onto lands municipally known as 10305 to 10379 & 10479 Nassagaweya Esquesing Townline (“subject lands”) within the former Esquesing Township of the Town of Halton Hills. The majority of the subject lands are currently designated Escarpment Rural Area in both the Town of Halton Hills and former Region of Halton Official Plans, which does not permit mineral resource extraction activities.

The amendment changes the designation of the subject lands from Escarpment Rural Area to Mineral Resource Extraction Area in both the Town of Halton Hills Official Plan and of the former Region of Halton Official Plan in order to allow for the expansion of the Milton Quarry. The amendment also updates various other appendixes and maps of the Town of Halton Hills Official Plan and the former Region of Halton Official Plan in order to identify the lands as a Mineral Resource Extraction Area.

### **LOCATION AND SITE DESCRIPTION**

The subject lands, municipally known as 10305 to 10379 & 10479 Nassagaweya Esquesing Townline, are located in the former Township of Esquesing, east of 6th Line Nassagaweya, north of Campbellville Road, west of Dublin Line and south of 15 Side Road. The portion of the lands subject to the Official Plan Amendments is approximately 30.2 hectares and of which, 15.8 hectares would see extraction occurring. The lands are currently vacant and contain a meadow landscape (which was historically farmed) and a small area of successional forest. Surrounding land uses to the property consist of the existing Milton Quarry (both portions in active extraction and those subject to rehabilitation) and natural open space areas (predominantly escarpment woodlands).

### **BASIS FOR THE AMENDMENT**

The following planning and land use considerations have been identified and are considered appropriate to provide for the Official Plan designation changes:

1. The proposed quarry expansion conforms to Provincial Policy (Provincial Planning Statement 2024, Greenbelt Plan and Niagara Escarpment Plan) which allows for mineral resource extraction activities, subject to appropriate amendments to land use planning documents;
2. The proposed quarry expansion implements the decision of the Minister of Natural Resources to approve a Niagara Escarpment Plan Amendment to redesignate the subject lands in the Niagara Escarpment Plan from Escarpment Rural Area to Mineral Resource Extraction Area;
3. A Joint Agency Review Team (JART) has reviewed all of the technical reports and materials submitted in support of the applications and is satisfied that the proposed quarry expansion can be undertaken in an environmentally responsible manner that protects the natural environment, does not impact surface and groundwater resources, minimizes impacts from blasting, noise, dust and vibration, and which utilizes existing transportation routes; and,
4. The quarry expansion would result in a net environmental gain in that a post extraction plan would result in the subject lands being rehabilitated to include lakes (as groundwater re-fills a portion of the quarry), artificial islands, shoals, new wetlands, rehabilitation to existing wetlands, and reforestation.

5. Council is satisfied that the quarry expansion satisfies the policies set out in Sections E6.1 and E6.4.4 of the Halton Hills Official Plan.

## **PART B – THE AMENDMENT**

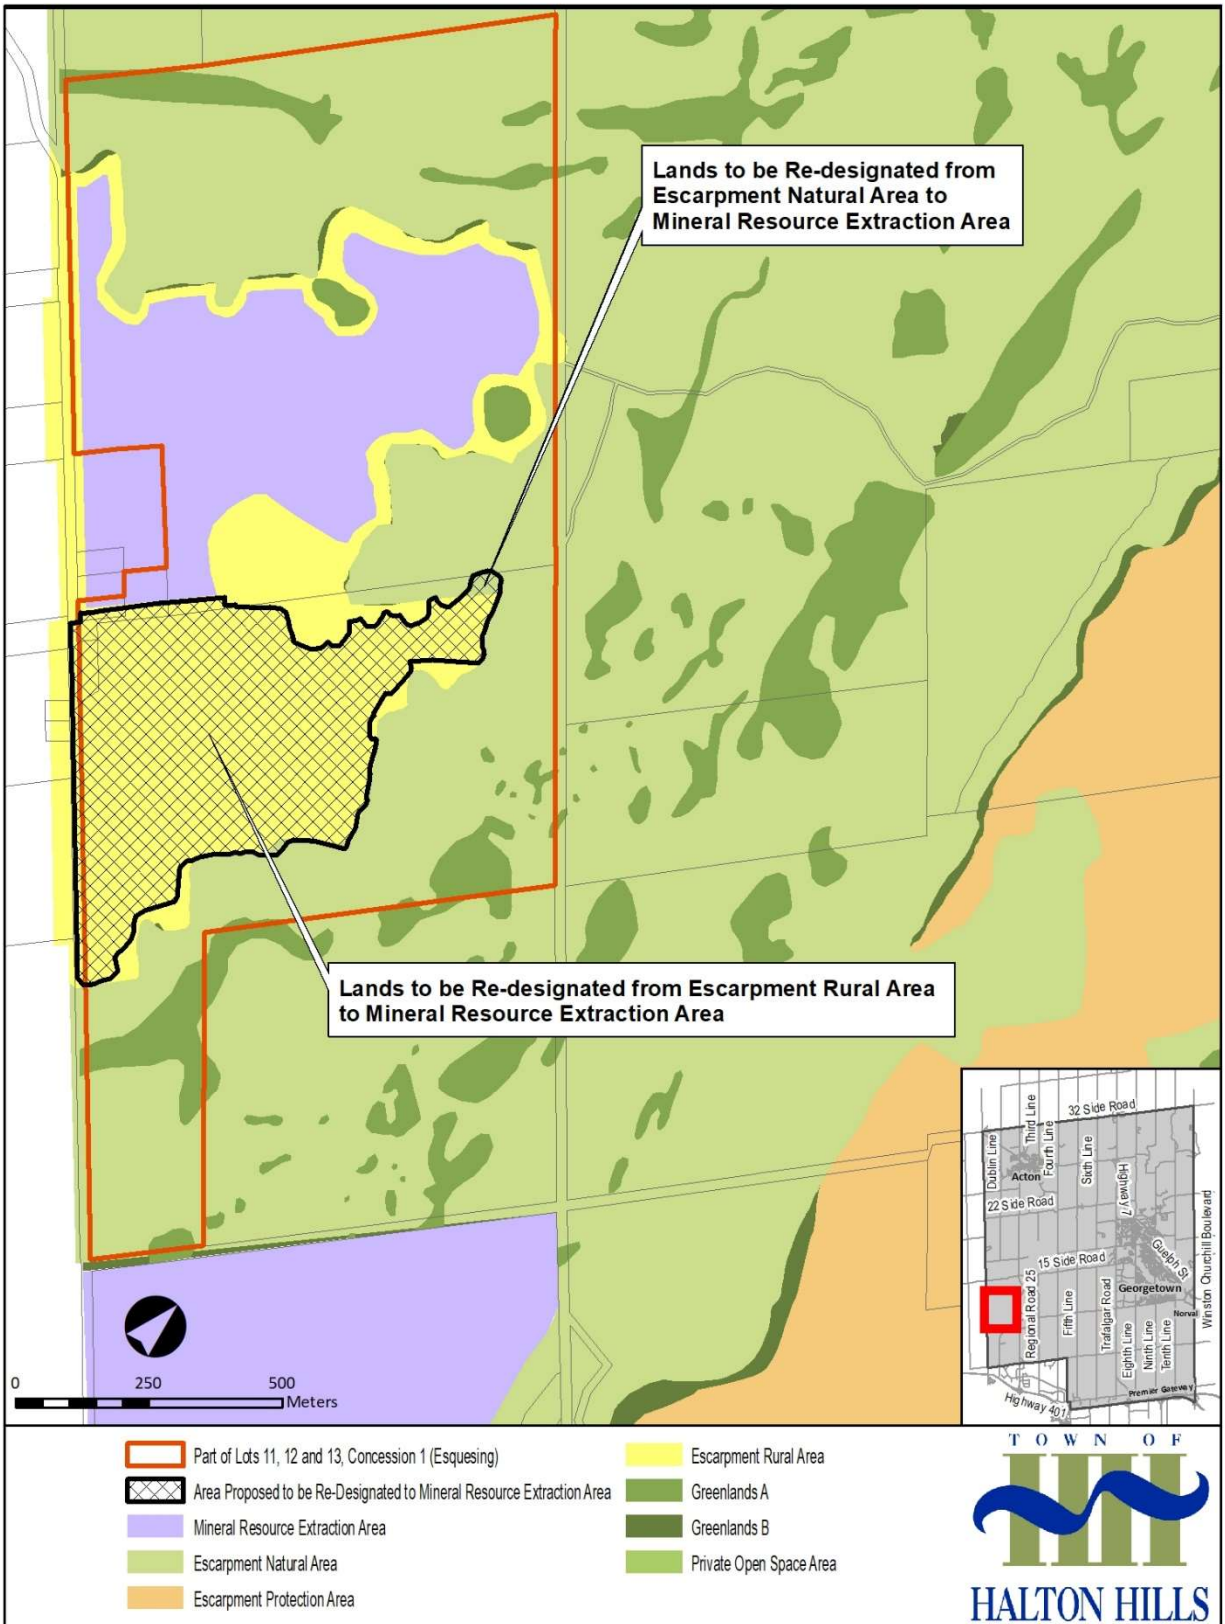

All of this part of the document consisting of the following Schedule and Text constitutes Amendment No. 61 of the Official Plan for the Town of Halton Hills and of the former Official Plan for the Region of Halton.

### **DETAILS OF THE AMENDMENT**

The Official Plan for the Town of Halton Hills and the former Official Plan of the Region of Halton are amended as follows:
