**Ontario Announces Measures to Increase School Bus Safety***Stop Arm Cameras on School Buses*

April 25, 2019 1:00 P.M.

TORONTO - Today, Jeff Yurek, Minister of Transportation was joined by Sam Oosterhoff, Parliamentary Assistant to the Minister of Education to announce new measures to give municipalities the tools they need to target drivers who threaten the safety of children crossing roads to their school or home.

The proposed regulations would allow for more efficient enforcement and prosecution by allowing evidence from these cameras to be used in court without the requirement of an additional witness.

"The safety of our most precious resource, our children, is our government's number one priority," said Minister Yurek. "We intend to create a regulatory framework that would allow for more efficient enforcement and prosecution to keep our children safer."

Ontario also plans to introduce legislation that, if passed, would allow municipalities to target drivers who threaten the safety of children on school buses with new, additional monetary penalties.

"The safety of children in our province is a priority for our government," said PA Oosterhoff. "The steps we are taking today will help to ensure students arrive safely to school, ready to learn."

"We fully support Minister Yurek and his government's announcement of regulatory change to permit the use of school bus stop-arm cameras as evidence of passing a stopped school bus," said Rob Murphy, President of the Independent School Bus Operator Association. "We have been looking forward to this announcement for some years. This announcement will help ensure children across our province will continue to be transported safely to and from school."

**QUICK FACTS**

- Each school day, more than 837,000 students travel in a school vehicle in Ontario.
- Injuries and fatalities, which are very rare, happen more often outside the school bus as students are boarding and leaving the bus or crossing the street.

AND WHEREAS the Township of Tudor and Cashel believes that Hydro One and the Ontario Energy Board should review its plans regarding delivery service to ensure that the cost of service delivery is fair to everyone;

**Subject:** Town of Minto Council Meeting Tuesday April 16, 2019 Item 9 f) Ontario Municipal Partnership Fund Resolution

Good Afternoon:

The Council of the Town of Minto met on April 16, 2019 to consider the above noted item and passed the following motion:

**MOTION: COW 2019-069**

**Moved by: Councillor Elliott; Seconded by: Councillor Anderson**

Whereas the Provincial government announced it was conducting a review of the Ontario Municipal Partnership Fund (OMPF), which provides annual funding allotments to municipal governments to help offset operating and capital costs; and

Whereas Municipalities were further advised that the overall spending envelope for the program would decrease having a significant impact on future budgets and how funds are raised by Municipalities as funding will be reduced by an unspecified amount; and

Whereas if allocations to municipalities are reduced, Councils will need to compensate with property tax increases or local service reductions; and

Whereas, the 2018 Town of Minto allocation was \$1,630,700 which is equivalent to 33.96% of the Town's municipal property tax revenue; and

Whereas the Town of Minto prides itself on efficient and value for money practices every day;

And Whereas, a 33.96% increase in the municipal property tax rate would increase the municipal component of property taxes paid for an average household by \$403 per year;

Now therefore be it resolved that although an interim payment has been received, Council of the Town of Minto expresses grave concern with the potential reduction and/or loss of the OMPF allotment in future years;

And Further, Council petitions the Provincial government to complete the OMPF review in an expeditious manner as future financial consideration ensures municipal sustainability;

And furthermore, that this resolution be circulated to the Premier, Ministers of Finance, Municipal Affairs and Housing, our local MPP and all Ontario municipalities for their endorsement and support.

### AMO Matters

On March 20, Municipal Affairs and Housing Minister Steve Clark announced funding for 405 small and rural municipalities to improve service delivery and efficiency. This new one-time funding of \$200 million is intended to support modernization efforts. While there is flexibility for how you invest it, the message from the government is clear that it is intended for making improvements that can reduce costs. At AMO, we would like to be able to tell the government how this money was put to work so they will continue to see municipalities as the right destination for provincial investment. We can also share your best practices with others. So please send us information about how you are putting this money to work in your municipality. Just a short note describing how you are using the money to support modernization is all we ask - you can put it in an email to [modernization@amo.on.ca](mailto:modernization@amo.on.ca) and we will take care of the rest.

Each week we will profile a key question about digital signatures. Q7: Can someone continue to use a digital signature after it is revoked? [Click here](#) for the answer.
