**Transportation and Public Works cont'd**

The following vendors perform repairs on various pieces of equipment and vehicles. In most instances, only a qualified, recognized, repair centre is able to provide this service as there may be potential warranty issues. These vendors have the requisite skills and tools to carry out the repairs as noted below. In other instances, diagnosing the extent of the repairs required, particularly on large trucks, may require that engines, transmissions or drivelines be disassembled in order to accurately assess the problem. It is not feasible to have the trucks diagnosed and then reassembled to obtain another quote. These trucks are vital to our everyday operations and timely repairs are imperative in order to allow staff to maintain existing service levels.

<b>Vendor</b>	<b>Comments</b>	<b>Previously Reported (excluding HST)</b>	<b>Spent to April 30, 2020 (excluding HST)</b>	<b>Suggested Increase to December 2020, (excluding HST)</b>
