

Health Department
MEMORANDUM
Healthy Environments and Communicable Disease

TO: Brent Marshall, CAO, Town of Halton Hills

FROM: Matthew Ruf, Director
Healthy Environments and Communicable Disease

DATE: February 12, 2020

RE: **Area Municipal Support to the Region's West Nile Virus Response Plan**

We are currently planning our West Nile Virus strategy for 2020 which will build on our experiences over the last few years.

Consistent with last year's approach, we are about to apply to the Ministry of the Environment, Conservation and Parks for a permit to larvicide on public lands. You may recall that a letter of support from you is a prerequisite for issuing the permit. (Please find last year's letter of support attached.)

We would appreciate it if you would agree to provide a letter again this year and send it to my attention before the end of March 2020. If you require any additional information or if the timeline presents a problem, please let me know.

Once again, thank you for your continued support.

A handwritten signature in blue ink, appearing to read "M. Ruf", written over a horizontal line.

Matthew Ruf
