It connects the community to the Legion and to Fairy Lake and all its offers.

[REDACTED]

11/26/2019 07:34 PM

Much nicer to walk around town where cars are not allowed. Closer to nature...

[REDACTED]

11/26/2019 11:47 PM

Residents, locals interact at both places

Anonymous

11/27/2019 11:02 AM

It would provide convenient access to the legion as well as the lake. People are using the path anyways, so it would be nice if it wasn't fenced off & was maintained.

Anonymous

11/30/2019 03:25 AM

It is a shorter walk and prettier. Better for seniors and will discourage driving.

Anonymous

12/04/2019 11:01 AM

Pedestrian paths are safer and much more pleasant than requiring folks (incl seniors) to walk on sidewalks along busy Mill St.

It allows those of us who live nearby to have a location for outdoor activity which is accessible to all of us. It is a beautiful piece of property which should be enjoyed.

Many seniors may wish to access the Legion on foot and it's a long walk around with the fence now in place

Anonymous

Provides more walking spaces for the public.

[REDACTED]

12/04/2019 09:19 PM

It will provide walking access to and from the legion. It will provide water access to fairy lake (at the legion) for birch way neighborhood residents

Lot of residents would like to use Birchway to access to Legion for walking as safer. I highly recommend to use option 1 - to build pathway steps to access to Legion, as right now Legion Resident's management had a close gate built a year ago which is cut off our walking path access to Legion . Option 2 & 3 - both no good, as too much mosquito during summer and too much trees around and we feel not safe to walk , please do not waste any financial resources. thanks

Many seniors attend events at the Acton Legion and find it easier to walk there from Birchway Place. A walkway also helps to promote lifelong fitness and activity.

I don't think it is important, but I do think it would be nice for those of us who like to walk. I used to cut across the Birchway property to get to back path, but see it is now blocked.

Anonymous

It is very important! We are members of Branch 197 and require easy access for special events hosted by the Acton Legion.

[REDACTED]

12/08/2019 06:50 PM

Allowing free passage and walking where there is no traffic is a wonderful idea

Anonymous

12/08/2019 09:56 PM

It allows access to the lake, the legion. We live on Birchway and have enjoyed the easy access for years and have been disappointed to have it locked off.

Anonymous

12/09/2019 11:49 AM

Because there is an existing pathway and the expenditure to create a new and only partially maintained trail seems excessive and unnecessary

Used the current Option 1 access quite frequently when it was available. Still seems the most convenient and straightforward option. Since it was closed off, movement around the area has been more difficult and getting to the Legion (that now advertises for members from the general public) is a lot more awkward. Did see a problem with respect to ATVs and snowmobiles using it and chopping up the ground. If implemented, this Option should

Anonymous

12/15/2019 09:00 PM

exclude use by those vehicles,

The neighbourhood has numerous people who walk for their health and/or to exercise their dogs. The proposed trail would provide an interesting and healthy alternative to the current sidewalk routes. The sidewalk routes often bring dogs in contact with residents' dogs, which, being dogs, tend to defend their territory with barking and aggressive behaviour. Children are often in their near vicinity. A separate walking trail would decrease stress levels for all concerned.

Anonymous

12/19/2019 08:18 AM

We can easily walk or bike along the existing sidewalks/roadway along Mill St. to the legion.

[REDACTED]

12/22/2019 11:52 AM

I live at [REDACTED]. I purchased my house knowing nothing could be built behind me. I do not want more traffic walking behind our houses, as this would only promote more noise issues and vandalism. Allowing people to walk behind our houses at all hours of the night, will led to crime, as they could stock the houses. We have sidewalks at the front of the houses, and they work fine. Also to mention the dog faeces that would be left on the trail, as it it on the old road at the end of Mill st.

Anonymous

Just my thoughts as a resident that access to the legion would put us back where we were in early 2018 without compromising the privacy of Birchway place residents

[REDACTED]

Anonymous

1/03/2020 11:44 AM

Anonymous

1/06/2020 10:17 AM

It would be a safer and more scenic option for a long walk with the kids (especially nice with young kids). We haven't any nice paved trails in acton either, except the one at the soccer field near prospect park; but that's quite far from this area.

Anonymous

Anonymous

Anonymous

I am generally in favor of any walking paths around Acton. Especially those that allow additional access to fairy lake.

Anonymous

1/15/2020 10:35 AM

The parking pad currently at the ASR is quite buzy. Tenants use this area to load & unload large or heavy items daily, groceries, water etc. Garbage Trucks, Recyling Trucks, Furniture & Appliance Delivery Trucks, Repair Trucks, ie Cogeco, Reliant Heat & Water, Maintenance etc.etc. Having pedestrians with children & dogs would be a " Safey Issue".

Year-round access is better.

Anonymous

12/04/2019 11:30 AM

Because it should be year round access but should also be accessible as well

Anonymous

12/05/2019 11:02 AM

Option 1 (this is the best solution) - Just build an access pathway or steps is good - as seniors I feel safer instead of going to the woods to access to Legion Building.

Year round access

Anonymous

Anonymous

12/09/2019 11:49 AM

Anonymous

12/12/2019 03:36 PM

it's the best option in my view.

Anonymous

12/12/2019 10:42 PM

Know this Option well, know it worked well and it looks like the simplest and least expensive. Other options look interesting but not as direct. The main problem I see with them is they provide access to the bush area that would likely attract loiterers. In the past police have been called to remove people who had built campfires and others have built shoddy shelters, left litter and beer bottles. On one occasion I saw kids shooting fireworks into the trees. I would prefer no linkage whatsoever. However, I would begrudgingly choose option 1, due to; cost (smaller project) and this option does not disturb the natural shoreline.

[REDACTED]

12/04/2019 09:19 PM

This option does not involve other lands (ASR) and so would not have to be kept clear in winter. Option 2 also ties into the addition trail of witch I think to be a great addition to Halton hills trails. Fairy lake is a very unique feature to have in a small town and the more ways we can all enjoy it the better

[REDACTED]

12/05/2019 01:00 PM

Q8 Please explain:

11/26/2019 11:47 PM

A trail behind Birchway to Mill will give view and access to our backyards which at present is quiet and private which is why we bought here.

Anonymous

12/04/2019 05:17 PM

Only that barriers be present near the lake (chain link fence perhaps) to ensure young children can't wander toward the water

Anonymous

12/05/2019 11:02 AM

Please do not waste the financial resources, as we living in Birchway almost 20 years and hardly see people walking behind the Town property, as too bushy with lot of mosquito during summer. Too much dense trees seems not too safe to walk for our seniors. Children normal not that adventurous to walk on, as they all busy on their summer Sports. Prefer use town financial resources to beautify the Prospect Park to plant more Japanese Cherry Bloosom instead of too traditional to plant Maple trees all the time. As after 20 years the Prospect Park will be bloosom with beautiful Japanese Cherry Bloosom for us to proud of. Please consider this please .

Anonymous

12/09/2019 11:49 AM

Mill Street is already linked to the Seniors residence by Birchway Place. Why spend more tax payers money to create a pathway that won't be maintained year round. Also it would go right behind my home and I don't want people staring into my backyard or taking things if they so desired. It's inviting unwanted foot traffic.

trail will be filled with garbage, doggie doo, possible vandalism to property. Parking concerns on Mill St. A BAD idea!!

Anonymous

12/12/2019 10:42 PM

Not a good idea for the same reasons cited in No.2 above. I would add the problem of dogwalkers who would release their pets (some quite large dogs) and allow them to defecate on the trail and nearby. This has happened for many years nearby on the old road. The unleashed big dogs become a threat to other pedestrians and smaller animals and their owners would do the same on Option 2 and Additional Trails. The applicable municipal bylaws are ignored by these dog owners so they cannot be given such access.

Anonymous

12/15/2019 09:00 PM

The only concern would be that the path would erode the privacy of residents whose houses back onto it. If this is managed in a satisfactory manner, the extension of the option 2 trail would increase its' usefulness as a pedestrian conduit from the neighbourhood to downtown and the park.

Anonymous

12/19/2019 08:18 AM

The natural habitat/shoreline of the lake should not be disturbed. This would also attract more people/garbage/crime into the area. We already clean up the garbage along the shoreline from the trailer parks across the lake and boaters. Last spring, I personally cleaned up two (2) pick up truck loads of garbage left by others.

12/22/2019 11:52 AM

Same as answer # 1 We have sidewalks in the front of our houses, they could use them.

Anonymous
12/22/2019 02:38 PM

With increased snow mobile activity on Fairy lake in the Winter, I wouldn't want this to be used by motor vehicles, including dirt bikes and quad bikes in the warmer months

12/26/2019 11:05 AM

This would be taking one step closure to disturb the wildlife living in the wooded area in proposed paths. Also, Birchway place street already have side-walks in both side of the road, and is quiet/closed street already, so additional pedestrian linkage is NOT necessary. The cost could be spent something better that could be necessary for town.

1/13/2020 01:32 PM

Privacy issues, who would pick up dog do do on this trail

1/26/2020 12:16 PM

The trail would interfere with the privacy enjoyed by the houses and apartments facing it.

Anonymous
1/26/2020 07:24 PM

The walk way will take away the privacy for the apartments and house if the trail is put in. We have already had snowmobiles coming behind the building, in the summertime kids on bikes and trail bikes, which tears up the grass. Seniors use the path to walk with their walkers for exercise, they don't have to worry about traffic coming from behind or dog poop that has not been pick up.

Q9 | 4. Please provide any other comments:

Anonymous
11/26/2019 07:20 PM

I think it can be noted that most people who previously used the path to the Legion from Birchway Place were quiet and respectful of those who lived in the building. Most people thought of it as a privilege to be able to get to Fairy Lake and the legion quickly. Other than on July 1 for Fireworks, the area was quiet and well maintained. I've lived on Birchway for almost 20 years, fairly close to the residence, and have never noticed anything that would warrant the fence that was put up, barring people from walking through. I hope a compromise can be reached.

11/26/2019 07:34 PM

Expanding the trail system throughout Halton Hills benefits more people and encourages people to go walking. Walking in nature is a great stress reliever and should be encouraged.

11/26/2019 11:47 PM

Acton needs more walking trails. Right now there is only the wood lot trail by the arena, and a small trail by Rachlin. The trail near Dr Moore Ct is unfinished, and literally ends on the railroad tracks. What about all the old trails that are behind the Acton high school? Since the ice storm of 2013 no repairs have been made, and it is very overgrown. The TOHH needs to invest more in developing walking trails in Acton.

[REDACTED]

12/04/2019 09:19 PM

All three are a great idea. Connecting community is always a great idea and it encourages people to enjoy the outdoors.

Anonymous

12/05/2019 11:02 AM

Option 1 is the best solutions which could be inexpensive and less maintenance down the road also safer for all seniors to walk and access to Legion Bldg. Option 2 & 3 - as town is require to maintain the path all summer long which cause more financial resources for nothing. Prefer Town using those financial resources to beautify Prospect Park. Also Town should send your maintenance crew in nexxt spring to trim down all bushes in front of the grounded wooden benches , as we were sitting those wooden benches this summer and could not see the lake as all blocked by wild bushes , we did phone couple of times to address this issues, seems not taking care till this November 2019 ?

I really like the idea of a trail around the lake. Even if it is only in part, a trail would bring enjoyment for a lot of walkers. I expect you would have more traffic in these now secluded areas, so a bit of a natural barrier would be nice for residents.

Anonymous

I have been a homeowner on Birchway Place for 24 years. To be denied access to the Legion (option 1) has been, needless to say, disappointing and inconvenient! Several Birchway residents (myself included) loved to take scenic walks to the lake during all four seasons and support Branch 197. Birchway Place lost its charm and in my opinion, its heritage within the Acton community due to an unnecessary installation of a locked gate!

One of the reasons we bought a house backing onto the lake was the fact that it provided extra privacy. The land is protected and no one would ever be able to build behind us. This is a very appealing aspect of having the forest and the lake behind us.

More trails everywhere please. It is not pleasant to walk on the sidewalks in town with all the traffic noise. We have a treasure in Fairy Lake and we need more access to trails around and near it.

Make the deal for Option 1 and forget the other ideas. Providing access to the conservation area will only leave it victim to abuse (partyers, negligent dog walkers, ATV drivers, snowmobiles, litterers and vandals)

When we bought our house we were assured the natural area behind our property would be left intact. We would expect financial compensation for the loss of property value, the loss of privacy and the lowering of our quality of life. Also, a privacy fence, paid for by the town, would need to be installed, if the town were to ever proceed with a trail. We would like to be informed of any decisions or further consultations regarding this proposal.

this would be easy pickings for anyone going to break into our homes. You would just open the doors for them. Easy access and escape

General concern about misuse of the walkway. Would it be maintained in the winter, lit up at night, most importantly, would restrictions be enforced?

Most of the residents, if not all, from birchway place (ie from lake side of the street houses), living here and bought homes to settle here, because of love in nature along with lake side, with some privacy around, for decades!.

Taking this away from the residents, for an unnecessary linkage, is not something to take lightly, especially it's country of valuing people thoughts. Requesting the town to please take this in to consideration.

That makes easy access for Kingham / Duby neighbours to access fairy lake.

Was open there for 20 years before someone decided it was a concern,(a new tenant with issue ??)..If you use path ,use at own risk..I can see a tit for tat spat coming between home owners and building residents,(parking , pulling in and out of parking lot) lets no get there ..A little give and take people..

Are there opportunities for volunteers to help keep trails clear/open? Are there plans to look at adding more formal paths around the other side of fairy lake?

Vehicles especially while backing up is always a concern. Take a careful look at the Shopping Centres, people walk behind a car, while a driver is backing out, it happens every day...

Before the fence was put in there was traffic from bikes, small motorbikes, and dog walkers (who didn't always pick up after their dogs). The pathway is currently being used by seniors with walkers and canes. It provides a safe walk without any fear of getting run down by bikes.

It would make a nice walking trail for our area, but I could see some of the neighbours not wanting to loose there privacy as the trail would go right behind there back yards.

Any additional walkways on this side of town would be an improvement. I also think it would be nice to be able to walk by the lake in the warmer weather.
